State Equipment Readied For Winter

It was just two weeks from today—one year ago—that a heavy snowfall blanketed north-eastern Ohio. With this in mind, the State Highway Department crews at the Columbiana County garage in Leetonia rolled out all their winter equipment for inspection Thursday morning.

State officials from Columbus were on hand to inspect the 16 snowplow trucks and a grader, tire chains, flares and all other essential equipment. Pictured are (l. to r.) Division Operations Engineer Dean Beauregard, Motor Transportation Division Frank Hall of Columbus, General Superintendent Tom Toomey, Division Equipment Superintendent William Maurer, and Division Mechanic Manuel Morgan.

Succeeds Retiring Macmillan

Lord Home Appointed British Prime Minister

LONDON (AP)—Lord Home was named today to be Britain's new prime minister—the man who must try to carry the Conservative party to victory in elections within the next year.

The soft-spoken but incisive foreign secretary, 60, was appointed by Queen Elizabeth II to be her first minister at the urging of retiring Prime Minister Harold Macmillan.

Midnight Rebellion
The choice of the Scottish peer, who advocates a firm but realistic policy toward the Soviet Union, came despite a midnight rebellion within the Tory party. A large segment of Macmillan's own Cabinet fought to the last to block Home's appointment and win the post for Deputy Prime Minister Richard A. Butler, now thwarted for the second time. Macmillan edged him out in 1957.

Resentment centered on Macmillan's decision to pass over

Conservative leaders in the House of Commons and select a member of the House of Lords. Home (pronounced hūme) is expected to relinquish his title promptly and seek a seat in the House of Commons in a special election.

Butler leads the liberal wing of the Conservative party. His supporters felt he gave the party a more modern image that was needed for the difficult struggle with the resurgent Labor party in the next general election, to be held by the fall of 1964.

Kept Clear of Struggle

Home himself had kept clear of the power struggle over the past few days. Friends said he was reluctant to shed his title in order to take over the government.

But Home was all smiles when he drove to Buckingham Palace to see Queen Elizabeth II.

LORD HOME
Named Prime Minister

Crowds gathered outside the palace knew at once that the struggle inside the party was over and that Home would be-

come the next prime minister. "It's Lord Home! It's Lord Home!" came the cry as his car rolled into the palace courtyard. Shortly thereafter came confirmation from Buckingham Palace:

"The Queen has received the Earl of Home in audience and invited him to form an administration."

Well Known To U.S.

Although the selection of Home may leave scars on the Conservative party, Macmillan had chosen a man he could trust in the critical field of foreign affairs — and a man well known to Britain's chief ally, the United States.

Home has served Macmillan as foreign secretary since July 1960. He acquired prestige through his efforts to ease East-West tension without surrendering vital Western interests to the Soviet Union. Macmillan had stunned an

important meeting of the Conservative party Oct. 8 by announcing that he was entering a hospital. Butler took over as deputy prime minister.

After a successful operation for removal of an enlarged prostate gland Oct. 10, Macmillan announced he would have to resign. Then the struggle over the prime minister succession began in earnest.

The last hour of the struggle began just before midnight. Word leaked out from Macmillan's sick room that he had decided to resign today and his choice as successor was Home.

Apparently, it was thought that the late-hour decision would head off a last-minute revolt. It didn't. Informal sources said Chancellor of the Exchequer Reginald Maudling and Iain Macleod, Conservative floor leader in the House of Com-

Fast Visit

Tito's Capital Stay Short and Not All Sweet

WASHINGTON (AP) — Yugoslav President Tito's visit to the capital was short and not all sweet. But his aides say the Communist chief feels he got what he wanted: U.S. recognition of his independence.

"Moscow had acknowledged earlier that there can be shades between white and black, now Washington has followed suit," said a Tito aide.

Tito got the full pomp and ceremony of a visiting head of state, including a handshake from President Kennedy, a 21-gun salute and a volley of criticism from Capitol Hill.

However it may have been the fastest-paced official visit on record.

Both sides agreed, though, that the talks between Kennedy and Tito were friendly and cordial and "characterized by frank discussion."

White House officials said the two principal topics discussed were improved trade and better East-West relations. Tito, informants said, spoke of his unhappiness about Congress' denying his country most favored nation trade privileges. He was assured the administration is trying to do something about it.

When he left to fly back to Williamsburg, Va., where he arrived Wednesday for the start of a 10-day cross-country tour, Tito carried with him a kaleidoscopic impression of Washington as seen in a nonstop motor trip, and a vague promise that Kennedy will visit Yugoslavia some day.

Tito, 71, was the first Communist head of state invited to Washington since Soviet Premier Khrushchev was received by former President Dwight D. Eisenhower in 1959.

In the Senate, Sen. Frank J. Lausche, D-Ohio, said: "I look with sadness on the fact this man is being graced and favored at the White House."

"This is a day of shame for all Americans everywhere," declared Rep. Louis C. Wyman, R-N.H., and Rep. August Johansen, R-Mich., denounced the President for welcoming Tito but not Mrs. Ngo Dinh Nhu, the controversial visitor from South Vietnam.

More States Take Emergency Measures

Fire Situation Critical As Severe Drought Continues

CHICAGO (AP)—Emergency measures aimed at curtailing the fast-spreading fires across many of the nation's parched forest lands have been taken by more states.

As autumn's severe drought continued, the fire situation, mainly in the Northeast and in sections of the Midwest and South, was critical in many areas.

There appeared no general break immediately in the prolonged dry and unseasonably mild weather. Property and crop damage mounted into the millions of dollars.

Forest fires have been reported in more than a dozen states.

In the East, Massachusetts and Connecticut joined New Hampshire and Vermont in ordering woodlands and brushlands closed to the public because of the dry conditions and the outbreak of scores of fires.

All state forest and park lands in Pennsylvania have been ordered closed to public use of any type, effective at noon today.

The fire danger in York County, Maine, was classified as explosive—the highest rating—and other parts of southern Maine were described as very dangerous. A ban on smoking and open fires remained in effect in southern sections, about 10 per cent of Maine.

In the Midwest, several state forests have been closed in Illinois. In Missouri, there was a ban on all picnic and camp fires in all state parks.

The Kentucky State Forestry Division director plans to ask for the closing of all state forests because of the serious fire threat. The Division reported 36 fires which burned nearly 900 acres in 30 counties Thursday.

Michigan also has acted, banning fires in forests, fields and woodlands.

In New Hampshire, William Messek, director of the division of resources, said the state is on

Moroccans Retake Two Sahara Posts

ALGIERS (AP) — Crack Moroccan troops have recaptured two Sahara Desert outposts but Algeria vowed today that "the fighting is not stopping."

Talks in Marakech, Morocco, brought no cease-fire in the undeclared border war, and the Algerian negotiators flew back to Algiers.

The Algerians claimed Morocco's ultimate objective is the oasis of Tindouf, an important iron mining center in western Algeria. The village of Tindouf, which has a population of about 1,500, is near the borders of Morocco and Mauritania and about 180 miles southwest of the battle zone.

An outnumbered, poorly equipped Algerian force of about 600 retreated Thursday from Hassi Beida and Tindouf, the outposts 900 miles southwest of Algiers. Apparently they had changed hands several times since fighting broke

United Fund Goal Is \$86,250

Chest Drive Hits \$39,405 Today

The Salem United Fund drive contributions now total \$39,405.98. General Chairman Ray Reasbeck, reported this morning.

Goal for the campaign, which started Oct. 8 and ends Oct. 25 is \$86,250.

Reasbeck said the total should top \$50,000 by Monday. He again urged all solicitors to turn their pledges into Byron Maxson, Chest Association secretary. Residential teams, however, are to turn their pledges into Mrs. Hobart Butcher at the Red Cross building on E. 2nd St., 100 Per Cent Street.

The Washington Ave. residential team reported residential sales of all 78 houses on that street have donated, making it the first 100 per cent street in the city.

Chairman Reasbeck noted that the good weather is a boon to the residential team and said the drive is beginning to move along at a rapid pace. He added that the residential team has nearly 50 per cent of its goal of \$4,000 and that the Professional-Health group topped its

U.S. To Name New Spacemen

Group Selected For Moon Shots

HOUSTON, Tex. (AP) — The U.S. space team for two-man rendezvous missions and three-man moon shots was to be increased today with the selection of 10 to 16 new astronauts.

Informed sources identified three potential members of the group in advance, but the Manned Spacecraft Center said strict secrecy on names would be maintained until the afternoon news conference announcement.

Two of the three arrived Thursday night but declined comment as they stepped from a commercial jet plane from Los Angeles.

They are Capt. Charles A. Bassett, 30, and Theodore C. Freeman, 33. Both are from Edwards Air Force Base, an advanced pilot training installation that supplied nine of the 16 astronauts selected in 1959 and last year.

They were met at Houston's International Airport by a spacecraft-center security guard. This is a courtesy normally accorded only astronauts and Washington dignitaries.

Informed sources also indicated another Edwards pilot, Capt. David R. Scott, 30, had been added to the space team. Scott was known to have spent Thursday with San Antonio relatives but was unavailable for comment.

Chances for Admission 'Zero'

Hoffa Making New Bid For AFL-CIO Entry

WASHINGTON (AP)—James R. Hoffa, the tough little giant of the labor world, is looking toward a new try at bringing his Teamsters Union back into the fold of the AFL-CIO next month.

But labor sources say his chances this year remain about the same as they have been since the Teamsters were ousted from the AFL-CIO on corruption charges in 1957—zero.

The conditions set by AFL-CIO President George Meany for the return of the Teamsters are unchanged:

1. Getting rid of Hoffa as president of the Teamsters — the world's largest union with about 1.7 million members.

2. Assurances that the controversial Teamsters will live up to the constitution of the AFL-CIO.

Hoffa, who said in Detroit earlier this week that "it is only a matter of time until the Teamsters are back in the AFL-CIO,"

apparently won't personally lead the new attempt at re-entry at the AFL-CIO convention in New York beginning Nov. 14.

It will come through resolutions presented by the Michigan Trades Council at the AFL-CIO Building Trades meeting Nov. 6, prior to the main convention.

Building and construction trades sources predict such a resolution would not get enough support to get to the floor of the AFL-CIO convention the following week.

Speaks to 1,500 In E. Liverpool

Gov. Rhodes Cites Proper Attitude As Industry Lure

EAST LIVERPOOL — A proper community attitude is the biggest single factor in encouraging industry to decide upon a plant site, Gov. James A. Rhodes told a crowd of 1,500 Thursday at Memorial Auditorium.

In discussing industrial development at the invitation of the new Community Improvement Corp., the governor declared that a firm seeking a plant site makes a careful study of the average citizen's attitude as well as the cooperation of township, city and county governments.

Gov. Rhodes spoke to an audience comprised mainly of high school students, but also

including about 300 members of the general public.

His address lasted less than half an hour, but the governor remained on the platform for nearly an hour to answer questions from the audience.

Alvin T. Babb, chairman of the CIC, presided. He introduced Mayor Bert H. Goodballet, who officially welcomed Gov. Rhodes to East Liverpool. Invocation was by Rev. Albert Rodenhansen of the First Baptist Church.

Gov. Rhodes said he has addressed similar meetings throughout Ohio in an effort to spark a new spirit of industrial development that will lead from

the governor's mansion and the state legislature down through all levels of local government. Gov. Rhodes disagreed with a questioner who said East Liverpool has suffered because it needs facilities for higher education.

"You had a branch of Kent State University here and it never had enough students to support it," the governor said. "It moved to Salem and encountered prosperity."

Prompted by State Rep. Clarence L. Wetzel, who was in the audience, the governor said additional funds will be allocated

Too Many Chiefs

Anti-Castro 'Buildup' Mostly Vocal

SAN JOSE, Costa Rica (AP) — The next flareup in Latin America may be among Cuban exiles fighting to see who'll lead the war against Fidel Castro.

The reason: Too many chiefs, not enough Indians.

This is an impression gathered by this reporter on a four-week, 1,000-mile inquiry into reports of a new military buildup to bring down the Castro regime.

There is no firm evidence in support of these reports.

A quick, tempting conclusion is that the biggest "buildup"—all vocal—is in Miami, Fla., among the Flagler street commandos who've been charting Castro's downfall for more than three years.

Central America, however, is a big and inviting site for anti-Castro training bases. Its 174,000 nearly deserted square miles—bigger than California—could provide cover for most of Latin America's armed forces.

And within its five-nation group—Guatemala, El Salvador, Honduras, Nicaragua, and Costa Rica — are four governments which probably would welcome a chance to provide the launching pad for a new offensive

against Castro. Costa Rica is the exception.

A curious aspect of the Central American scene is sharp evidence among most people of more resentment, and even hostility, toward their own governments than toward Castro. This

Lake Milton Man Indicted In Niles Killing

WARREN, Ohio (AP)—David Zirwas, 28, of Lake Milton, remained in the Trumbull County jail today awaiting trial on a first-degree murder charge in the robbery-slaying of a vending machine operator last month.

The grand jury, called into special session indicted Zirwas Thursday after hearing several witnesses.

Zirwas is accused of shooting to death 46-year-old Ben Krawiecki while attempting to rob the Youngstown vending machine operator in a parked car on a Niles street Sept. 19.

Among the witnesses was County Sheriff Robert Barnett. He testified that Zirwas admitted the fatal shooting of Krawiecki because Zirwas was desperate for money.

Zirwas was arrested in Las Vegas, Nev., Sept. 23 after shooting a 16-year-old hitchhiker from Independence, Kan.

Brothers, Only Negroes In School, Gain Acceptance

BIRMINGHAM, Ala. (AP) — Dwight Armstrong is vice president of his sixth grade class. The most remarkable fact about this is that Dwight and his younger brother, Floyd, are the only Negroes in Graymont Elementary School.

Floyd also is gaining acceptance among his white classmates. Just the other day, he said, he was surprised when he was picked to captain the touch football team that day.

Dwight, 11, and Floyd, 10, made history along with 20 other Negroes in Birmingham, Mobile, Huntsville and Tuskegee when they attended white schools—under federal court orders.

Catholic Council Approves Changes In Sacraments

VATICAN CITY (AP) — The Vatican Ecumenical Council voted qualified approval today to changes in the Roman Catholic sacraments, such as baptism, penance and matrimony.

The changes will permit use of modern languages in the rites and will give extreme unction a new name, "anointing of the sick."

Proponents say such changes will make the sacraments mean more to Catholics.

The council fathers — cardinals, patriarchs, archbishops, bishops and other prelates from around the world—voted for the changes in approving the third chapter of a council schema on liturgy, or public worship.

Only 30 of 2,214 prelates voted against the chapter. But outright approval came from just 1,130. The other 1,054 gave approval but with reservations.

The result was that the chapter failed to get a definite two-thirds majority of 1,477.

The council already had approved 10 amendments to the chapter, one by one, by overwhelming majorities earlier in the week.

But the suggestions made by those who voted approval with reservations — "placet juxta modum"—now must go to the liturgy commission for further work and amendments.

The council then must approve the amendments, but no new vote is needed on the full chapter, which is regarded as approved.

A third majority vote of "placet" and "placet juxta modum" approves a chapter.

PROBATION INVESTIGATION

HAMILTON, Ohio (AP)—The probation Department is investigating the background of Samuel Wilson, 31, before he is sentenced for killing his wife. Wilson pleaded guilty to first-degree manslaughter Thursday in Butler County Common Pleas Court. He said he thought his pistol was empty when it went off in their Middletown home June 2, killing his wife, Hazel, 27.

There have been a few incidents — an occasional trip, or push, but nothing unpleasant lately. Armstrong, who moved into the neighborhood five years ago, keeps a guard at his house all night, and the family rarely turns on the lights in the front of the house — just in case.

Dwight and Floyd study hard. Both brought home good report cards this week.

They said they don't know what the future will bring, nor do they know what they would like to be, but they are optimistic.

Said Floyd: "The same boy who kept making faces at me, he doesn't make faces at me any more. Now he's my friend."

SALEM PILGRIM CHURCH

(Inter-Denominational)

Depot Road and Mapie Drive

The fellowship of the SALEM PILGRIM CHURCH humbly beg the forgiveness of our friends and neighbors for failing to show forth the excellencies of the Gospel of Christ.

We are in the midst of special revival services and we have been enjoying a measure of God's blessing. However, under the searchlight of God's Word we recognize we have failed God and the community. We have failed to seek the lost, love the erring, recover the backslider, comfort the sorrowful, and witness to God's saving grace in our lives. We have been selfish, or too busy to help the poor or the strangers in our community. Please forgive us.

II Chron. 7-14 is our star of hope. "If my people . . . will humble themselves . . . confess their sin . . . seek my face . . . then will I hear in heaven . . . heal their land. We want revival for Salem and healing for our land. This confession is part of that price.

Hints from Heloise

— By Heloise Cruse —

Dear Mommies: Halloween does roll around: For those who give parties at this time of the year I would like to pass on a few ideas I learned from some of my neighbors:

Buy some oranges and cut a small piece off the end of each one. Set aside these "tops" because you're going to need them later.

Take a sharp knife and cut out the inside of the oranges... then take a spoon and scrape out all of the remaining pulp.

Draw a Halloween face on one side of each orange shell with an ink marker.

These shells may be filled with scoops of ice cream, gelatin, or... if you are in a real party mood they may even be filled with tuna fish salad, or just about anything.

If you are going to use ice cream, put the orange shells in to your refrigerator and chill them. After they are thoroughly cold... scoop some ice cream or sherbert into them and serve; or, you may add the "tops" you cut off. Makes it look like a hat on a clown.

Then take an ice pick and punch a hole in the top of these "caps". Put little birthday candles in each hole. Light the candles before serving and bring them in the dining room on a tray and just watch your guests gasp...

FOR DESSERT, about the yummiest thing I have found to

put in these orange shells is orange sherbert. And, ladies, if you use orange sherbert do not scoop out too much of the pulp from the inside. This lends more flavor.

I also discovered, after making this dessert about five times, that if I cut off a minute slice from the bottom of the orange it will sit flat on the plate. However, these may be served in sherbert glasses, small bowls or on your dessert plates.

To make it really festive, sometimes I let the sherbert melt slightly and add the orange pieces (after cutting them into small bits) to the sherbert before refreezing. I then put the orange sherbert back inside the shell. Wow! Happy eating.

HELOISE.

DEAR HELOISE: I have three children, two in grade school and one preschooler.

When school started my youngest child felt very lonesome and did not have much of an appetite after the others went off to school with their lunch bags and books. Then I hit upon an idea...

When packing lunch for the two children who went to school, I pack a third lunch—yes, even down to the brown paper bag and napkin.

How very pleased my preschooler is, and how grown up he feels to have his own lunch... just like his older brother and sister!

Now he eagerly looks forward to lunch time when he gets his lunch bag from the refrigerator.

MARY TAILLARD.

DEAR HELOISE: Getting rid of leaves is easy if you collect them into piles and then rake them onto an old tarpaulin, plastic cloth or shower curtain. (This is much easier than using a basket and it saves picking up the leaves by hand. Also you can carry much more at one time.)

Then drag the cloth to the compost heap (or trash pile) and alternate a layer of leaves with a layer of good garden dirt. Next year you will have a supply of good rich soil.

MRS. JOHN HAGER.

DEAR HELOISE: The seeds from annuals, such as zinnias and marigolds, can be collected and saved in baby food jars for the next year's planting. If di-

Warren Man Killed In Truck Pileup

INDIANA, Pa. (AP)—An Ohioan is one of two truck drivers dead as a result of a spectacular crash on Rt. 442 near here Thursday. Two other persons were injured.

The Ohioan was Theodore Kuhn, 47, of Warren. The other victim was Albert Blackman, 56, of Altoona, Pa.

State police said Kuhn's truck, laden with steel pipe, went out of control on a downhill curve and crashed first into Blackman's rig, then into another driven by Donald Clark, 38, of Scranton.

Clark and a passenger in his rig, Antelo Quarta, 31, of Scranton, were injured. Clark was released after treatment.

SENDS RAILROAD BILL

FREMONT, Ohio (AP)—For cleaning 2,000 feet of railroad right-of-way brush here to prevent brush fires, the city has sent the New York Central Railroad a bill for \$2,346. The city says it took 11 men 10 days to do the job and failure of the railroad to pay the bill will result in the amount being placed against the company's tax duplicate.

Homing Pigeons Didn't Come Home

TOKYO (AP)—Missing: 51 foreign and 162 Japanese homing pigeons.

Where? Between Matsushima (Pine Island) and Tokyo, 190 miles apart.

When? Since Wednesday morning.

The pigeons were entered in the 11th annual International Pigeon Race sponsored by the Japan Homing Pigeon Association.

Only four Japanese pigeons of 217 entries have returned to their coops in Tokyo. The missing pigeons were last seen wheeling in the sky from Matsushima at 8 a.m. Wednesday. "We're flabbergasted," a pigeon Association spokesman said today. "They're long overdue."

All the Steel News Is Boomy

Steel Magazine's report that steel producers are squaring away from a 15 per cent increase in October, instead of a 10 per cent increase (previously considered on the optimistic side) is adding to the boomy atmosphere in the steel industry.

No less significant of still bigger things coming is Steel's further report that the industry's "selective price increases" are being accepted. This indicates that the market is reacting favorably in the face of price increases. It is taking them at face value—not discounting them.

This creates the correct psychological mood for normal buying, plus a little to stay on the safe side. The alternative is what existed previously, when consumers of steel scouted all talk of price increases because they knew existing prices were being discounted.

The situation now moves into the season of the year when weather looms as

large as economics. A winter like last winter ceased to be climate and became economics.

So far, ideal construction weather has prolonged summer building activity.

New autos are catching on with the public. Auto makers are working around the clock to build up dealer inventories.

There is no danger of filling up the pipelines as long as the other end stays open — as long as new steel keeps going up, plates keep going into the presses and bars keep going into the milling machines.

The only thing that can stop steel from staying boomy is another thermometer-busting winter.

Danger At the Curb

Salem citizens who rake leaves into piles at the street edge should see that the leaves are disposed of quickly.

Autumn's collection on the ground is an invitation to playful children to romp at will, ignoring the danger of passing cars. And leaf bonfires should be tended constantly, lest some child fall into the inferno and be killed or terribly disfigured. All of us should be aware of the danger at the curb.

A Heavy 'Byrden'

The cynical statement "A tax cut is for the birds," may be more literal than figurative.

It will require a "Byrd" to back it if it ever flies out of the Senate Finance Committee onto the floor of the Senate for debate and vote.

When it comes to finances Sen. Harry F. Byrd, chairman of the committee, is a real "bird dog."

It seems that President Kennedy is in Mr. Dog's birdhouse—er Mr. Byrd's doghouse—because the proposed tax cut is not accompanied by a cut in federal spending.

The president has been crowing that a tax cut is necessary to make the economy soar to greater heights. But opponents of the cut chirp that without a cut in spending the federal deficit will have to be clipped.

Sen. Byrd and many other conservative Democrats and Republicans believe a bird in hand is worth two in the bush.

The burden of hanging on to the bird falls to a Byrd.

Halloween Antics

City officials' designation of Oct. 30 as Halloween "trick or treat" night for Salem's youngsters makes sense.

Until the plan was instituted several years ago, young Halloweeners made a nuisance of themselves for nearly two weeks, obviously being permitted by their parents to go out prematurely. No one is interested in putting the damper on wholesome fun but "trick or treat" night on the 30th and the city's big Halloween mardi gras parade on the 31st ought to satisfy young and old alike. Vandalism, naturally, won't be tolerated.

Warning on Rabies

The fact that a Wellsville man must undergo rabies treatment because one of his hounds had the disease, should prompt all owners of animals to make certain their own pets are inoculated.

Until the present case was discovered, Columbiana County hadn't had a rabies case since Feb. 9, 1953, when a gray fox was shot and found to be infected. That was one of the worst periods, however, County health department records disclosed that there were 20 cases from January, 1952, to March of '53.

The absence of the dread rabies—until now—proves that prevention is the best safeguard.

Letter From Max

By Martin R. Miller

Dear Truman Twill:

My driver's license lists the color of my hair, which makes me wonder about women and perhaps men who dye their hair risking arrest for falsifying their identity. This is a diminishing problem for you, old fellow.

Speaking of 'identity,' highbrow literary critics are fond of discussing it, much to my bafflement. This gives rise to the following imaginary dialogue.

"What is life?"
"Life is a search for Identity."
"Who's Identity?"
"He is a private eye devoting his life to a search."
"Whom is he searching for?"
"He is searching for Identity, his brother."
"Well, when he has time he can search for me too, because I'm lost."

We baldies change our identity by putting suntan lotion on our pates.

If you think red tape never pays off, listen to this. We recently returned a piece of merchandise to a department store and got a credit slip in return. But the merchandise had been marked down \$1 when we bought it and the clerk who gave us the credit slip overlooked this \$1, so we got credit for \$1 too much. Later we called this to the store's attention. They told us to keep the \$1, it wasn't worth the bother to go through all their books and make

the correction. Who said honesty doesn't pay?

Next time someone dials a wrong number and gets you on the phone, pass the time of day with the caller. Maybe he just wanted to talk to anybody.

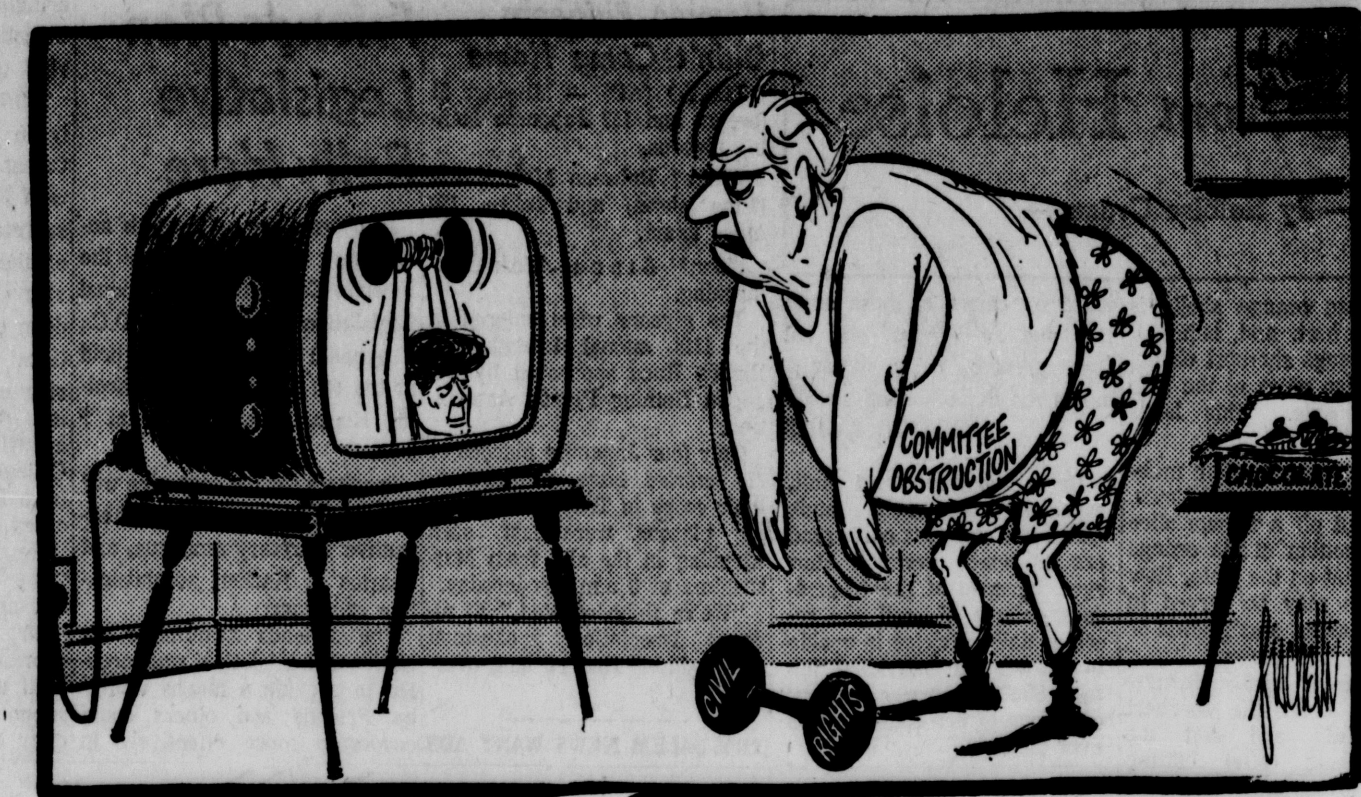

One of these days they'll start giving trading stamps for trading stamps and really have a good thing going. We would be making money every time we bought something.

Our horny-handed ancestors would get a laugh out of this: a new leaf rake comes equipped with a pair of work gloves.

You were writing the other day about the Contrary Opinion Forum held in Manchester, N. H., and this raises the fascinating prospect of organizing some Knock-er Clubs to balance the great variety of Booster Clubs now holding sway. Imagine the fun of having all the chronic knockers under one roof and listening to them knock, knock.

How come you almost always see small vocal groups with more men than women, such as two men and one woman, or three or four men and one woman? Bet you never thought of that and wished you had never heard of it.

Faithfully yours,
MAX

"Lift It? I Can't Even Reach It"

Union Eyes Wall Street

By VICTOR RIESEL

Wall Street is going to get paniced — not with ticker tape, but with labor literature. A "new unionism" will try to move into the haut monde of white collar society. A new organizing drive has been carefully planned to put a union label on the heart of world fi-

Victor Riesel

nance. This "new unionism" is led by a new type unionist — the 50-year-old, cultured Howard Coughlin, president of an organization rather unassumingly named the Office Employees International Union and headquartered in New York City.

In a few days, Coughlin, who has strong local in moon base brain centers and Nevada secret ties, will shower Manhattan's canyons with 50,000 leaflets.

These flyers will urge the "Street's" while collar peo-

ple to sign up. Coughlin's objective is some 35,000 employees of the world's biggest brokerage houses and banks.

THIS DRIVE will not be one of those "workers-of-the-world-unite" campaigns. First there will be music. Permits have already been obtained for a lunch time orchestra concert on the steps of the old sub-Treasury Building on Wall Street.

Actors provided by Actors Equity and vaudevillians dispatched by the American Guild of Variety Artists (AGVA) will do turns saying that if unionism is good enough for them, it should be good enough for the ladies and gentlemen of finance.

Then the sign-up campaign will be launched with the intensity of a drive on a steel mill. The Office Employees International does not lack a base.

Virtually unknown to the public, and to many of the national labor leaders themselves, the union has for some time had the New York Stock Exchange, the American Stock Exchange and the Cotton Exchange under con-

tract.

This will not be a class war. Coughlin's men and women will be backed by the rest of labor—now one of the decision-makers, and frequently the strongest influence, in the investment of scores of billions of dollars. Right — the figure is billions. And some of these monies are on deposit in the big banks which are now the objectives of the new drive. Other huge sums are in accounts handled by the biggest security houses in the world.

THERE IS, for example, one New York local which has a fund of some \$60 million. It is estimated that the locals of the United Brotherhood of Carpenters have a total of \$750 million. The steelworkers have vast funds.

I have ascertained that the labor management trustees pension funds in which unions have vast influence now have over \$20 billion in stocks and bonds. And these, of course, must be purchased through "Wall Street."

These pension funds receive \$5 billion a year — virtually all of the money being contributed by American commerce and industry.

Of this annual income, some \$1 1/4 billion is invested in common and preferred stocks and in bonds. This makes the pension funds good clients for any brokerage house. And no one wants to battle a customer.

AS FOR the banks, they not only carry huge cash accounts for the pension funds, and handle the multi-million dollar treasuries of the big unions, but they also advise them on vast real estate investments.

Thus it's not likely that the big houses will attempt to fight off the new unionizing drive. Nor will employees be unaware of the effect on the staffs of brokerage firms which might lose juicy labor accounts to another firm where the employees have signed up with the union.

It may be that Wall Street has turned a corner. It may yet have a union label.

New Union Breed

By ARNOLD BEICH

In Western Europe, a new breed of trade-union leader has emerged out of what was once a Socialist-oriented labor movement. Omnipresent in Britain, Sweden and Germany, this new "man of labor" wouldn't, however, be caught dead saying a kind word about capitalism.

Though he calls himself a Socialist or Social Democrat, he has moved far from Marxist concepts of class struggle, surplus value, dictatorship of the proletariat or other clichés of classical Marxism. If he is at all animated by any central idea, it is the concept of government planning with full participation and consultation of trade unions.

Western Europe's contemporary labor leadership is best exemplified by George Woodcock, British Trades Union Congress (TUC) general secretary, who was interviewed during a New York stopover en route to Mexico and Venezuela.

A HANDSOME, lanky man of 59, with John L. Lewis eyebrows Woodcock personifies an unusual ingredient in trade unionism best described by the word intellectualism. He is a graduate of Oxford with honors in that university's famed PPE — philosophy, politics and economics.

He also is a graduate from what was once called the working class. As a child, he left grade school to follow his father's occupation as a weaver in the Lancashire textile mills. When described as an intellectual to his face (a term which borders almost on the pejorative in British labor circles as it does here in the U.S.), he snorts self-deviously.

"Yes, I'm an intellectual, an intellectual who had to go to work when I was 12 in a factory at three shillings a week."

When he was in his early 20s, Woodcock won a TUC scholarship to Oxford's Ruskin College and later, another to New College. In 1933, he won a third scholarship for post-graduate work at Manchester University. In 1936 he joined the staff of the TUC as a research economist and in 1960, he was elected to the highest post in British trade unionism, TUC general secretary and spokesman for Britain's 9 million organized workers.

Woodcock's first major crisis was surmounted last month at the 95th national congress when he brought in a report calling for a wage policy tying increases to over-all national productivity.

In short, he attempted to face the ever-recurring conflict between what is described as the

economic interest of the nation and the economic interest of industrial workers.

WOODCOCK ARGUED that a labor movement's wage policy should seek to increase real income, as against money income. This could only come about by holding down costs and prices, by ensuring a high level of economic growth through increased industrial productivity.

This in turn would guarantee that Britain's exports could compete with other major exporting nations. Confronted by Woodcock's report, the convention almost split, but a compromise was fashioned which permits the TUC to stay on "eddy" and stresses the need for increases in "real income" and "real purchasing power." But like Mr. Facing-Both-Ways, the convention went ahead and adopted a resolution opposing "any form of

wages restraint" — but by a tiny majority.

Perhaps it's in this outcome that the Woodcock philosophy of realpolitik has had its victory. He forced upon the British labor movement the realization that it had to make some kind of readjustment, he has no intention of speaking for that party in the next parliamentary elections.

IN SHORT, when called a political neutralist, he does not repudiate the characterization.

"Our job is a trade-union job," he said. "A man joins a union to get better wages and working conditions security. Everything we do is aimed at fulfilling these primary functions."

"Certainly I'm a politician, but my responsibilities are to the trade unions and cannot be pre-empted by any political party. We must face all political parties. We are in politics be-

cause not everything can be realized through negotiations with employers. We must be interested in international trade, taxes, foreign policy because all these affect the employer as well as the worker."

Strongly anti Communist, men like Woodcock Geiger and Rosenberg — and there are others as well — see the industrial future of trade unionism not alone in strikes or meaningless wage demands, but also in accommodation with employers and government as the surest way of achieving full employment and real purchasing power.

Once such a philosophy might have been castigated by European Marxists as "class collaboration" or the "betrayal of working-class interest." Today these taunts would be meaningless, because the concepts are meaningless.

Today a Tory British Cabinet Minister accepts a TUC leader as a genuine spokesman whose advice is to be sought and even heeded.

Today In History

Today is Friday, Oct. 18, the 291st day of 1963. There are 74 days left in the year.

Today's highlight in history: On this date in 1867, Gen. Lovell Rousseau took possession of Alaska for the United States, which paid about two cents an acre for the former Russian territory encompassing 586,400 miles.

On this date In 1812, Capt. Jacob Jones sailed his U.S. warship Wasp through the British blockade of Chesapeake Bay to attack and capture the British brig Frolic.

In 1901, President Theodore Roosevelt was host at a White House dinner for the Negro educator, Booker T. Washington — first of his race to be a guest in the executive mansion.

In 1931, Chicago gangster chief Al Capone was convicted of federal income tax evasion and sentenced to 11 years in prison and fined \$50,000.

In 1945, twenty-four high-ranking Nazis were indicted for having conspired against world peace.

Ten years ago . . . An Eastern Airlines plane bound for Puerto Rico crashed and burned on takeoff from New York's Idlewild Airport, killing three and injuring 18.

Ann Landers Answers

Dear Ann Landers: Why don't people keep their mouths shut when they don't know what they are talking about?

I'm the mother of twin boys, 8 years old. I had a very difficult pregnancy and almost lost my life when the twins were born. The doctor advised me against trying to have more children so my husband and I decided to adopt. It took two years before we were able to get our adorable little girl. Laurie is now 5 years old and what a joy!

Last week Laurie came home crying as if her heart would break. One of her playmates told her his mother said we couldn't possibly love her as much as we love the twins because they are of our own flesh and blood and she is not.

I tried to comfort the child and reassure her, but she hasn't been the same since. She seems withdrawn and unhappy. Can you suggest any way we can help her?—FURIOUS MOTHER.

Dear Mother: I trust (and hope) that Laurie had been told by you and your husband that she was adopted before the neighbor kid got to her. If not, perhaps this is part of the reason for her unhappiness.

Continue to give Laurie generous doses of love and attention. Let her know that as a chosen child she is special—and that you were lucky to get her because so many others wanted her, too.

Anniversary Song

Dear Ann: Last year I wrote to you about a problem I was having with my husband. He agreed to do as you said and it worked out fine. Now we have another problem we'd like you to settle. Again he has promised to take your advice.

Our eighth wedding anniversary is coming up. It falls on the opening day of the hunting season. He wants to go hunting with the fellows. I say a wedding anniversary is a lot more important than hunting, and that he belongs home with me.

We get along a lot better than most of our friends and I would say our marriage is a good one. Please settle this because we've been talking about nothing else for two weeks. Thank you. —MRS. CALL OF THE WILD.

Dear Mrs. Wild: And just what kind of an anniversary celebration do you think you'll have with a long-faced martyr who would rather be hunting?

Of course his choice shows he's a self-centered little boy but let him go anyway. Every marriage should have at least one adult and in your home you'll have to be it.

Mother of Bridegroom

Dear Ann. Our son soon is to be married to a lovely girl.

It is customary where I come from the mother of the bride to ask the mother of the groom for the names of close relatives to assist at the reception. Our family is small but some members will be coming a great distance for the wedding.

I'd like my brother to be at the punch bowl. My husband has two wonderful aunts, charming and well bred, and I'd like to have them pour.

I realize the bride's family puts on the wedding and the reception but it's our son's wedding, too, and it would seem like a slap in the face if our family were ignored.

Please tell me if I should inform the mother of the bride that I feel strongly about this. —A. B. W.

Dear A. B. W.: The groom's family should indeed be included in the reception activities. If the suggestion comes from you, however, it might be resented.

Ask your son to mention it gently to his fiancée and let her take it from there. If you hear no more about it, let the matter drop. The unpleasantness which might result would not be worth it.

127-Year-Old Home Modernized with Flameless Electric Heat!

Mr. and Mrs. Howard Propst, Hanoverton, Ohio, restored their 127-year-old home and furnished it with many lovely antiques . . . and, during this restoration process, added flameless electric home heating and appliances for modern total electric living!

"Electric home heating is just wonderful, that's all," says Mrs. Propst. "I work every day and I don't have to dust nearly as often, because with electric heat there is no blower to form dust and dirt. And, because it's so clean, all my curtains, which are white, only have to be done up once a year. I wouldn't trade our electric heat for any heating system we have ever lived with."

Negro Performers on Television Increasing

By CYNTHIA LOWRY
AP Television-Radio Writer

NEW YORK (AP)—An interesting addition to television this season handled without emphasis, is the presence of so many Negro performers.

All network programs have been using Negro actors and actresses in increasing numbers during the past couple of seasons, but usually in minor roles—policemen, judges, members of crowds.

Many have noted the change and compared it with the situation of a few seasons back when a series set on the Mississippi River in the Civil War period managed a whole season without showing a single Negro, even in crowd scenes.

One of the funniest Dick Van Dyke shows was an episode involving a suspected baby-switch. A pair of attractive young Negroes were prominent in the proceedings.

"The Defenders," which along with the old "Naked City" series has always used Negro actors, will star actor-playwright Ossie Davis, playing an assistant district attorney, in its Nov. 9 episode, "East Side, West Side" on Nov. 4 is to tell a tragic love story about a young married couple, Negroes, who lose their baby. That series, incidentally, makes frequent, unostentatious use of Negroes.

"The Nurses" has had Negroes playing feature roles, and next Wednesday's "Eleventh Hour" stars Diahann Carroll as a nurse.

Bud Collyer, off CBS' "To Tell The Truth" with a leg ailment, will resume taping shows next week. During his absence, vari-

ous performers substituted as host. Particularly effective was Orson Bean, whose offbeat sense of humor worked so nicely that he'll moderate next week's daytime shows.

NBC's "Espionage" series, which got off to a rather soggy start, turned up with a good suspenseful show this week and is a series to keep an eye on.

Recommended weekend viewing:
Tonight—"Seven Miles of Bad Road," NBC, 8:30-9:30 (Eastern Daylight Time), Bob Hope Theatre drama starring Eleanor Parker, Jeffrey Hunter and Neville Brand.

Sunday—"The Tempest," NBC 6-7:30 p. m., repeat of the Shakespeare adaptation, with Maurice Evans and Richard Burton; "Manhattan Battle-ground," NBC, 10-11—documentary about a social worker in New York's slum area.

The Granges

Garfield Has Program
A meeting of Garfield Grange was held Tuesday evening, with Robert Morrow, Master, in charge.

It was voted to install a light outside the grange hall, with the committee, composed of Earl Mather, William Fogg and Ellis Steer. An auditing committee composed of Mrs. William Fogg, William Fogg and Mrs. G. R. Norton was appointed.

The subject of the program was "The United Nations," with "The Battle Hymn of the Republic" sung in opening. Roll call was answered by telling "What are Some of the Purposes of the United Nations,"

A poem, "Columbus," was read by Miss Bette Morrow; a reading, "Would You Like to be An Ambassador to the United Nations," by Mrs. Wanda Bedell; Halloween contest by Miss Matie Kutz.

Owing to election Nov. 5, with polls in the hall, grange will meet Nov. 12.

THE GREAT PUMPKIN, HIMSELF — For more than 10 years this 80,000-barrell gasoline storage tank at the Los Angeles Refinery has beamed its toothy smile for the two weeks leading up to Halloween. The tremendous grin—the mouth is 73 feet long and 10 feet high—can be seen for several miles. Each year thousands of visitors come to southern California to visit what could well claim to be the world's largest Jack-o'-lantern.

Martini, Girls?

By CARROLL ARIMOND
(Substituting for Hal Boyle)

CHICAGO (AP)—Some theologians hold that good works performed in this life are rewarded in the hereafter. My friend, John McBride, says it is not necessary to wait that long.

One Sunday morning John's wife, Mary, observed, "It is such a nice, pleasant day. Why don't we take those two ladies down the block for a ride in the country?"

"Why?" asked John. He would have liked to spend this Sunday like the one before, curled up with a big, fat Sunday newspaper and a quota of one highball per section.

"Because it would be a nice thing to do," Mary replied.

John acknowledged he had no argument to match that so he telephoned the two ladies. They would be delighted to go.

For hours they roamed over winding, hilly blacktop roads of southern Wisconsin. One of the ladies observed that it would stay pleasant all day because all the cows were standing up.

Mary said she was getting hungry.

"Instead of turning back for home" Mary proposed wouldn't it be fun to go someplace for dinner? Bradford's is just a few miles down the road."

"That would be nice, indeed," the two ladies agreed.

John just nodded. He remembered he left home with exactly \$15. Bradford's was one of those places described in the four books with "Dinners from \$4.95." No one ever orders the \$4.95 dinner.

He could, he figured, hold the bill down by ordering only coffee. But how could he signal Mary to keep her from suggesting that the ladies start off with a class of sherry? Would Mr.

what YOU should know about
FLU

Nobody knows whether influenza will strike this year in the same epidemic proportions it reached in the fall and winter of 1957-58. However we must be on guard against a disease that is ever imminent and can prove so costly.

PROTECTION IS SIMPLE
Have your physician give you the simple protective vaccine that can safeguard you against the discomfort of influenza and possible serious interruption in your work.

This vaccine usually takes from 4 to 6 weeks after injection to produce maximum immunity, which is believed to last from 6 to 12 months.

MANY SYMPTOMS
Influenza may be accompanied by weakness, lassitude, chills, muscular pain, headache, fever, (usually from 101 to 103 degrees) nausea, vomiting, sore throat or cough. When any or all appear, go home and to bed, then check with your doctor.

GET PROMPT TREATMENT
Bed rest, aspirin and plenty of fluids are effective measures, but your doctor should be consulted at once so that he can be on the lookout for complications such as pneumonia.

BE PREPARED
Check with us for medicine cabinet needs such as a thermometer, aspirin, mouth washes, gargles, etc. We will be glad to give you professional guidance in making your selections.

right through a deadbeat. Mr. Bradford bent down and picked something off the floor.

"Young man," he addressed John, "you should be more careful with your money."

Mr. Bradford laid on the table a \$20 bill, obviously dropped by a previous diner.

"Girls," John proposed as Mr. Bradford moved to the next table, "would any of you care to start off with a Manhattan or a martini?"

He paused at the McBride table and stood behind John. John wondered if he was one of those sharp business who can see

Car Club Garage Here Burglarized

Tools and equipment valued at \$738 were stolen from the Rod Angels auto club garage at 150½ S. Lincoln Ave. sometime between 1 a.m. and 4 p.m. Thursday.

The burglary was discovered by members of the club when they went to the garage after school on Thursday. It was reported to police by Mike McGhee, 16, of 480 Washington Ave., a member of the organization.

Intruders entered the garage by breaking a small pane of glass in a door and reaching in and unlocking it. The overhead garage door was also opened.

Tools valued at \$400 and owned by Robert Shasteen of 1690 Jennings Ave. and welding equipment valued at \$338 were taken.

Police are investigating.

the brink of a major fire unless there is heavy rainfall.

The closing of woodlands in Connecticut delayed the state's upland game and duck hunting season.

Officials in New York State, New England and Arkansas said there were definite indications that arsonists set some of the fires in the woodlands.

New Jersey state officials who have halted all open fires within 200 feet of state woodlands, considered halting hunting and fishing in the state which has not had measurable rainfall for nearly three weeks. Fire blackened about 1,000 acres of the Norvin Green State Forest before it was brought under control.

The drought has seriously curtailed water supplies in many areas, cut hay and other crops, lowered milk production and increased the prices of livestock feed.

Drought conditions prevail in most of Texas. Brown County farmers in south central Texas and dairymen in Dallas County asked the Department of Agriculture Thursday to sell eligible farmers grain at a cut-rate price and for permission to graze cattle on soil bank land.

SCHOOL WINDOWS DAMAGED

Rev. J. R. Gaffney, pastor of St. Paul Catholic Church, reported to police that sometime after 8 p.m. Wednesday six windows in the school building were shot with air rifles. He also reported an amplifier was taken from the church at about 1 p.m. Sunday.

Summitville OKs Gas Rate Contract

SUMMITVILLE — An ordinance was passed giving the Ohio Fuel Gas Co. a rate increase of one and seven-tenths per cent for a four-year period when Village Council met Thursday.

The company originally asked for a 3.5 per cent increase. Courtney Pennell, district manager from Lisbon, was present. In other business, Council passed a resolution accepting the amounts and rates as determined by the County Budget Commission.

It was decided to order ashes and salt for ice control this winter.

Mayor Ernest Phillips presented a report received from the Board of Appeals of Ohio that two sections of 3rd St. and the public tennis and basketball court have been exempted from taxation.

Bills totaling \$247.24 were approved to be paid.

The Mercury group pioneered the U.S. manned space program with solo flights that were terminated with the 22-orbit mission May 15-16 by Maj. Leroy Gordon Cooper Jr.

Ohio State Survey Shows Cheating Is Widespread

COLUMBUS, Ohio (AP)—The Council on Student Affairs at Ohio State University has decided to form a special committee to look into reports of widespread cribbing on student exams.

The CSA agreed on the action Wednesday night after reviewing the results of a student poll in which 42 per cent of 1,800 students asked admitted cribbing. Seventy-nine per cent said they had seen classmates engaged in obvious cheating.

The poll was sponsored by the Women's Self Government Association, the largest women's group on the campus. It also included replies from 452 faculty members.

Asked what they had done about exam cribbing, the faculty members said they had flunked students, lowered grades, and in some cases referred students to the Committee on Academic Misconduct. Others said they simply moved students to other seats.

The women's group, in urging the CSA to act, called for preventive and not punitive action.

is one of the most backward areas of Latin America.

"What? Somoza helping liberate Cuba?" exclaimed a Nicaraguan doctor wryly. "Why doesn't he liberate his country first?"

The reference was to Luis Somoza, Nicaragua's ex-president and one of two heirs to the Somoza dynasty that has ruled that country 30 years.

Somoza has injected himself into the anti-Castro ranks through a close association with Manuel Artime, political leader of the ill-fated Bay of Pigs invasion.

Somoza says he is helping Artime and the Miami-based Cuban Liberation Committee rally all exiles behind a single standard to prepare and deliver—with the help of experts—small but effective sabotage and harassment stabs at Castro within Cuba.

The final objective, he says, will be an all-out offensive in November to establish a beachhead and provisional government that would seek quick hemisphere recognition.

The new exile raiders are being trained into tiny battle groups of two or more, according to Somoza. He emphasized training was not being carried out in Nicaragua, but "elsewhere in Latin America and some in the United States without the knowledge of the American government."

More Donors Needed For Bloodmobile Visit

One hundred donors are needed to meet the quota when the Northern Ohio Red Cross Bloodmobile is in town Thursday. Chairman Louis J. Raymond reports.

The unit will be at the United Steelworkers hall on Prospect St. and will be in operation from noon until 6 p.m.

Raymond said 75 appointments have been made to date. He noted that many industries have not made appointments for their men. Residential recruitment is under the direction of Mrs. Lyle Biehler and Mrs. George Peterson.

Blood officials pointed out that last year the residents of the North Columbiana Chapter saved in excess of \$38,000 by participating in the free blood program.

More important than the money, however, is the advantage of having the blood at local hospitals rather than having to hunt it in an emergency, they added.

Donors may make appointments by calling the Red Cross office.

mons, led the battle for Butler. The choice for the succession, however, is essentially that of the outgoing prime minister, and there was no budging the sick man in King Edward VII Hospital.

Macmillan was reported to have decided on Home because he believed Home could do more than anyone else to restore party unity.

At 10:30 a.m. The palace announced Macmillan's resignation.

Before the announcement, the queen and her private secretary, Lt. Col. Sir Michael Adeane, went to the hospital and talked for an hour with Macmillan.

Call Came From Palace

Then came the call to Home to go to Buckingham Palace.

Only after Home succeeds in forming a government, as the queen asked him to do in selecting him, will he become prime minister. The Macmillan administration remains in power until this time.

Home takes over from Macmillan at a low ebb in Conservative party fortunes. Britain must have a national election for a new Parliament sometime within the next year. Lord Home will select the date.

Many signs indicate that the election may bring a triumph for the Socialistic Labor party of Harold Wilson, out of power for 12 years.

Home was a member of Commons from 1931 to 1945 and from 1950 to 1951, when he succeeded to his father's earldom.

Although he had held a variety of government posts, including five years as commonwealth secretary, Macmillan's appointment of Home as foreign secretary in 1960 aroused controversy and ridicule. But Home proved to be an outstanding foreign secretary—lucid, firm and by no means the puppet his detractors expected him to be.

In addition to George Wilson, director of industrial development who cited the importance of a "master plan" and community improvement corporations, the governor was accompanied by six other members of his cabinet.

They were Warren Nelson, director of highway safety; Louis Raney, assistant tax commissioner; Denver White, welfare director; Donald Cook, liquor control director; Alfred Geunor, director of public works, and Richard Crabaugh, finance director.

J. Warren Bettis of Salineville, a member of the Ohio Public Utilities Commission, also attended.

The governor's party flew to Wintersville instead of Salem as originally planned, then came to East Liverpool in an auto caravan on Route 7. The governor and other officials left shortly after the appearance to return to Columbus.

The course is being presented for the first time in Columbiana Council.

Ohio Universities Plan Promotion Of Bond Issue

KENT, Ohio (AP) — Representatives of 12 state and municipally supported universities will participate in a statewide marathon promoting state issue No. 1.

On Oct. 26 and 27 runners from the schools will carry "torches of learning" to symbolize the importance of education in Ohio and to dramatize the \$250 million bond issue.

The issue will appear on the Nov. 5 ballot and much of the funds are earmarked for expansion at state-aided universities and colleges.

According to Terrence Moran of Cleveland, president of Kent State's Student Council, Gov. James A. Rhodes will light the torches at the Statehouse in Columbus Oct. 26.

Runners, accompanied by State Highway Patrol cars, then will start carrying the torches to the four corners of the state. The marathon runners will end up in Athens, Toledo, Youngstown and Oxford.

Kent runners will carry a torch from the University of Akron to Kent and then to the Cuyahoga County line on Oct. 27. Student runners from Cuyahoga Community College will meet them there and take the torch to their downtown campus in Cleveland.

No Suspension for Canton Patrolman

CANTON, Ohio (AP)—Mayor James H. Lawton says patrolman Glenn E. Swab, who was criticized by a City Council committee investigating vice and rackets in Canton, will not be suspended from the police force unless city and police officials determine that the criticism was warranted.

The mayor said Thursday that he had discussed the matter with Service-Safety Director Cliff W. Gehrmann and Police Chief Frank J. Burnosky.

"We all agreed there would be no suspension until the facts are known and the council committee has given us the information," Lawton said. Swab, 33, was criticized by the council committee for his conduct as a member of the Police Morals Bureau. He has not been charged with any illegal act.

OSU Rated Underdog For Clash With USC Saturday

Miami Battles Northwestern

Ohio Northern Faces John Carroll At Ada

By FRITZ HOWELL
Associated Press Sports Writer
The odds - fellows figure unbeaten Ohio State is a three-point underdog for Saturday's 12th tussle with Southern California at Los Angeles.

But the twice-trimmed Trojans could lose that three-point edge in a hurry if they allow the Buckeyes to get within rifle-shot of the goal line, for in his last two games Dick Van Raaphorst has booted 48 and 49-yard field goals—the longest ever kicked in the Big Ten.

Ohio State holds a 6-4-1 advantage over Southern Cal since 1937, including a 20-7 verdict in the 1955 Rose Bowl.

The Trojans, filled with returning talent, have scored two touchdowns in each game while winning over Colorado and Michigan State and losing to Oklahoma and Notre Dame.

Bucks Drill This Afternoon

The Bucks flew to the Coast this morning and were due to work out in the afternoon. They will head home immediately after the contest to concentrate on plans for next week's invasion of Wisconsin.

While the Bucks are having their intersectional fling, the schedule for the stay-at-homes offers some bright spectacles on the Ohio gridirons.

Ohio Northern and John Carroll, each unbeaten, tangle Saturday night at Ada in a game certain to cut into the state's four-team unblemished contingent. Bluffton and Ashland, each 4-1, battle for the Mid-Ohio Conference lead at Bluffton.

Ohio University, loser to Toledo by a single point last week, goes against unbeaten Delaware at Athens, while the rebounding Rockets face Bowling Green's four-game winners on the latter's grid.

Among the more interesting frays is Miami's encounter with Northwestern at Evanston. The Redskins, in the last nine seasons, have taken on Big Ten opponents six times and have beaten three of them.

The fray will put two standout quarterbacks on display. Tom Myers, Wildcat signal-caller, is touted as one of the best in the business, but southpaw Ernie Kellermann of Miami has rushed for 279 yards, completed 29 of 52 passes for 390 yards and 3 touchdowns and scored 13 points.

Saturday's slate:

MID-AMERICAN: Toledo (1-3) at Bowling Green (4-0); Kent State (0-2-1) at Western Michigan (0-4).

OHIO CONFERENCE: Kenyon (0-3) at Capital (1-2); Marietta (2-2) at Wittenberg (3-0-1); Denison (4-0) at Mount Union (1-3); Akron (3-1) at Wooster (1-3); Ohio Wesleyan (1-2-1) at Oberlin (1-2); Heidelberg (0-3-1) at Muskingum (2-2), and Otterbein (2-1-1) at Hiram (1-2).

MID-Ohio: Ashland (4-1) at Bluffton (4-1); Defiance (1-3) at Wilmington (2-2).

NON-CONFERENCE: Ohio State (2-0-1) at Southern Cal (2-2); Miami (2-1-1) at Northwestern (3-1); Central State (3-1) at Tennessee A & I; Delaware (3-0) at Ohio University (2-2); Detroit (1-3) at Cincinnati (3-1); Hillsdale at Baldwin-Wallace (3-1); Xavier (1-2-1) at Dayton (1-3); Eastern Michigan at Findlay (3-2) (N), and John Carroll (2-0) at Ohio Northern (5-0) (N).

Mississippi Is Favored Over Tulane

By BOB GREEN
Associated Press Sports Writer

The nation's major college football teams shift their attention from cross-country feuding to backyard squabbles this weekend, but it just means a change to homegrown trouble for most of the ranked teams.

Seven of the Top Ten teams have conference games scheduled Saturday and all but one could be placing their high standing in jeopardy.

Only bulky Mississippi, 2-0-1 for the season and No. 5 in the nation, ranks as a top-side favorite against Tulane, which has scored only 10 points in losing four straight, in a Southeast Conference affair.

The other ranked teams going against conference opponents—No. 1 Texas, No. 2 Wisconsin, No. 6 Oklahoma, No. 7 Illinois, No. 8 Georgia Tech and No. 9 Alabama—anticipate much tougher opposition.

Razorback Have 2-2 Record
One of the big ones takes place in Little Rock Saturday night where the Razorbacks, 2-2, will try to stop mighty Texas, 4-0. Arkansas, co-favorite to win the Southeast Conference title in the pre-season picking, was shocked 14-10 at Baylor last week.

Texas displayed a brutal ground game in knocking over Oklahoma 28-7 last week and taking over the nation's No. 1 spot.

The Big Ten lead goes on the line in Iowa City where unbeaten Wisconsin takes on Iowa. They are tied for the top with 1-0 league marks. Wisconsin is 3-0 over-all and Iowa is 2-0-1.

Another Big Ten match has seventh-ranked Illinois, tied for third with a 1-0-1 league mark, at home against a Minnesota team that may be better than its 1-2 record would indicate.

Oklahoma, now 2-1, opens its Big Eight play against Kansas, 2-2.

Georgia Battles Auburn
The feature of the Southeast Conference schedule could be the test of Georgia Tech by Auburn. Bobby Dodd's Engineers are eighth in the nation and 3-1 over-all, but Auburn comes into it unbeaten in four games and a definite threat.

Another big one has ninth-ranked Alabama, 3-1, vs. Tennessee, 1-3, at Birmingham.

Third ranked and unbeaten Pitt travels to West Virginia. The Mountaineers are 2-2 and could be primed for an upset.

Among the other ranked teams, No. 4 Ohio State, 2-0-1, visits Southern California, 2-2. Navy, 3-1 and tied for 10th, plays Virginia Military, 1-2-1 at sharing the No. 10 spot, is at home against Miami of Ohio, 2-1-1.

Packers-Cards Tilt To Feature NFL Slate Sunday; Bears Take On 49ers

By JACK HAND
Associated Press Sports Writer
NEW YORK (AP) — Green Bay's seasoned defending champions and the ambitious St. Louis Cardinals meet Sunday in an important National Football League game that could decide the fate of both clubs.

Since losing their opening game to Chicago, the Packers have rolled to four straight victories on their way to a Nov. 17 rematch with the Bears. The youthful Cardinals, who split two with tough Pittsburgh, are only one game behind unbeaten Cleveland in the Eastern Conference. Wally Lemm's Cards

still are smarting from the memory of their 17-0 defeat by Green Bay last year.

Cleveland Expected To Roll
The game in St. Louis tops the card for the weekend. The two unbeaten teams, Chicago and Cleveland, are expected to roll

along, the Bears at Los Angeles and the Browns at home against Philadelphia. Roman Gabriel gets his shot at quarterback for Los Angeles in the Coliseum against the Minnesota Vikings. Don Shula leads his Baltimore team against his old Detroit teammates for the first time at Detroit. Dallas visits New York

to find the Giants crawling out of the wreckage left by Jimmy Brown and Washington visits Pittsburgh, giving Ed Brown a chance to limber up his passing arm.

Denver, Boston Play Tonight

In the American Football League, a Friday night game finds Denver at Boston. On Sunday afternoon there are three more rematches from the program of three weeks ago. San Diego is at Kansas City. Buffalo at Houston and New York at Oakland. In their first meetings, Denver, San Diego, Houston and New York won.

Last week was a little better with the picks, except for the Cleveland game, so the season figure now is 31-20-2. If we could only get even in that AFL. Here goes again, all games Sunday unless otherwise noted.

NFL

St. Louis 28, Green Bay 24—upset of the week. Packers' front four will rush Charlie Johnson like he never has been rushed before but the kid has it. If Green Bay can give the Vikings 28 points, no reason the Cards' balanced offense can't get as many.

Cleveland 35, Philadelphia 21—Browns may let down after beating Giants but they pack too much power for the chopped up Eagles.

Chicago 28, San Francisco 10—Bears run it up as high as they want on last stop of their California junket.

Baltimore 20, Detroit 17—Shula wants this one the worst way against his old Lion buddies. Detroit toughest in league on pass defense but Johnny Unitas will find a way.

Minnesota 28, Los Angeles 14—Vikings can score but have trouble stopping anybody. Tommy Mason should have a big day.

New York 28, Dallas 17—Y.A.

An emergency meeting was held by the Ohio Big 8 Basketball Conference recently to change the site of the first annual league preview (for this section) from Niles to Salem.

Fred Cope, Salem High athletic director, pointed out that Niles doesn't think it could be ready in time for the event. He said "The Niles Football squad won't finish its campaign until Nov. 15, the cage program is scheduled for Nov. 30.

Alliance, Warren and Niles will compete in the event in Salem. A similar card is set at Steubenville, where the Big Red will entertain Canton McKinley, Massillon and East Liverpool.

At the request of League Commissioner Sem Erich, Salem will hold the preview in the Senior High School gymnasium, which has been tentatively scheduled Nov. 30.

SALEM'S FOOTBALL team, isn't as bad as the record indicates, and if you throw out the Farrell, Pa. contest, statistics for the other games are just about even.

The Quakers' last two losses were by eight points and a couple of bad breaks in each fray was the only difference.

It is doubtful if any team in the state can match, according to the size of its school, a more murderous schedule than Salem has played in the past four weeks.

Lorain, with tremendous size, outmanned the Quakers 20-6; Farrell, Pa. sky high for the team in 15 years, trimmed the Claricomens, 22-15; and Canton Timken nipped Salem 14-13, last week.

Most of the same company will remain on the Salem slate

A SCHEDULE WE would like to see the Quakers encounter would have Ashland in an opener and would include Ravenna, Martins Ferry, Wellsville, Barberton, Lisbon, Lorain, East Liverpool and Dover.

Other schools we feel the Quakers could play after year are Cuyahoga Falls, Canton Timken, Canton Lehman, Struthers, Berea, New Philadelphia, Akron Hoban, Farrell, Pa., Marietta, Boardman, Cardinal Mooney and Steubenville Central Catholic.

RALPH KNEPPER of Salem has tied the record at Flying B Golf Course with a five under par 31. He equaled par on the first two holes, had a boggie on the 131 yard par 3, No. 3 hole, then finished with six straight birdies.

He made 15-foot punts on the sixth, eighth and ninth greens.

Playing the nine-hole site with Knepper, were Robert Shaeffer (41), Dempa Balsley (38) and Bill "Red" Crouch (38).

Memberships for the 1964 season are now on sale at Flying B clubhouse until May 1. Rixans Squire, an Irish Setter owned by Mr. and Mrs. Everett Winegard of W. Park Ave., Columbiana, was judged best of breed and took first place in the sporting group in the Richland County Kennel Club Dog Show at Mansfield recently.

FRED PHILLIS former Salem grid star, has been instrumental in Bowling Green University's unbeaten season so far. The veteran end had caught three passes for 45 yards.

Cooperation Main Reason Why Browns Are NFL Threat

CLEVELAND (AP) — Cooperation is the major factor in the emergence of the Cleveland Browns as a strong title threat in the National Football League, says Blanton Collier, their new coach.

Collier talked about cooperation as it applies to the offense and play calling following Thursday's long drill. The Browns worked on defense in preparation for Sunday's game with the Philadelphia Eagles here.

"There is no mastermind of said. 'Everybody has chipped in ideas. And there have been hours and hours of hard work by coaches and players alike.

"We've incorporated many of the ideas coming from the players. And we've been successful following suggestions from the fellows during the game."

Asked if a play he sends in always is used, Collier replied, "No."

"I've called off things from the sideline on occasion and

Jury Convicts Man In Junk Yard Theft

LISBON — Charles Edward Weyand, 19, of Dale St., East Liverpool, was found guilty of a burglary charge by a common pleas court jury Thursday after the jurors deliberated less than a half-hour. He was charged with burglary of the office and warehouse of the Caplan junk yard July 6 in East Liverpool. Weyand was indicted by the

September grand jury after he was picked up with material from the office and junk yard in his car, after the East Liverpool police had noticed the car at the junk yard gate. Weyand tried to get away from the police but was apprehended 100 feet from the gate on River Road.

Defense counsel requested the court to make a probation investigation which Judge Joel H. Sharp ordered.

A word from **THERON** at the Country Store

I went into our dining room here at the Country Store the other evening. A lady from Leetonia called me over and said she was at a ladies club meeting the night before. At the meeting they were talking about me and some were rather put out.

Someone started a rumor that I bought a bear for the Columbiana Clippers to burn before the game between the Leetonia Bars and Columbiana Clippers.

We don't care what people say about us just as long as they don't forget us, but we would like to have them know the truth, providing it's in our favor and it usually is.

The Doctor Says

By Dr. WAYNE G. BRANDSTADT

Health Questions, Answers

When a child ground his teeth in his sleep, grandmothers believed that this was a sure sign that he had intestinal worms. We know now that this is not so.

A child may grind his teeth when he is sick with one of the childhood fevers, or it may be nothing more serious than an exciting dream. If dreams are the cause, no treatment is needed—but you may want to get a pair of earplugs for yourself.

If the grinding becomes habitual, excessive wearing down of the teeth may occur. Two New York dentists, Doctors L. M. Gecker and R. B. Weil, have devised a plastic "night splint" to protect the

teeth and gums of chronic grinders. The splints can be made for persons of all ages, some adults are teeth grinders, too.

Q—My 11-year-old son had a serious illness that resembled a combination of diphtheria, smallpox and pneumonia. Our doctor called it Stevens-Johnson syndrome. What causes it and will it recur?

A—Your son had a very serious type of skin disease, a severe form of erythema multiforme. This may occur as a part of a food allergy or of such infections as measles, spinal meningitis and pneumonia. There are other causes, but they could not apply to your son. In addition to redness, hemorrhagic spots and blisters in the skin, serious damage sometimes occurs in the internal organs as a result of this disease. Recurrences are rare.

Q—What could cause my 6-year-old daughter to have a vaginal discharge? What can I do for it?

A—In a 6-year-old child this is most likely caused by infection with trichomonas, threadworms or thrush. Have your doctor find the cause and he will be able to prescribe appropriate treatment.

Q—Children who attend school with my children sometimes have impetigo, ringworm, scabies or head lice. Shouldn't they be sent home so as not to spread these conditions to the rest of the class?

A—While none of the conditions mentioned is serious, it is true that all of them can be spread by contact and this should be prevented. This is a

matter that should be taken up with the school principal, school doctor or school nurse.

Q—Would it be advisable to add powdered brewer's yeast to an infant's formula as a source of the B vitamins? If so, how much should be given?

A—Brewer's yeast is an excellent source of the vitamin B complex. If an infant has any signs of vitamin B deficiency, the addition of brewer's yeast to the formula would be advisable. Otherwise I would leave it up to your pediatrician whether to give it and how much to give.
